LANDUNIKA RASADHI

Software Engineer | AI & Full-Stack Developer
Sri Lanka | rasadhilandunika@gmail.com

SUMMARY

Software engineer with a background in Applied Sciences, Mathematics, ICT, and Physics.
Focus: AI engineering, LLM applications, full-stack development, and backend systems.

EXPERIENCE

Software Engineer - Neura Intelligence (PVT) Ltd

- Developing AI-powered financial content analysis applications
- Building backend APIs using Python and FastAPI
- Working with LLMs, prompt engineering, and evaluation pipelines
- Developing frontend components using React and TypeScript
- Working with data processing and integration pipelines
- Using AWS services and CI/CD workflows

Trainee Software Developer (AI) - BooleanLab (PVT) Ltd

- Developed backend APIs using Python and FastAPI
- Worked with SQL databases and LLM-based applications
- Supported AI/ML data collection, annotation, and preprocessing
- Worked with API testing and backend development

PROJECTS

Sri Lankan Electoral Systems Calculator (Python, FastAPI, Angular, LangChain, Gemini)
AI-Powered Financial Content Analysis Platform (Python, FastAPI, React, LLMs, AWS)
YouTube Analytics Dashboard (Power BI, DAX)
Transaction PDF Generator (Python, FastAPI, SQLite, SQLAlchemy, Streamlit)

EDUCATION

B.Sc. (Hons) in Applied Sciences, Mathematics and ICT, Physics
University of Sri Jayewardenepura

SKILLS

Python, JavaScript, TypeScript, SQL, Java, C
React.js, Angular, FastAPI, REST APIs, Node.js, Express.js
LLMs, RAG, NLP, Machine Learning, Pandas, Power BI
MySQL, MongoDB, SQLite, Git, GitHub, AWS, Postman, GitHub Actions
